

Metering Enclosures and Switchboards

Our Metering Solutions and Switchboards ensure you have everything you need for your next installation. For diverse applications such as single homes or multiple units to commercial buildings, we supply ready to use solutions making your next job quick and simple.

The use of our innovative quadro M and quadro evo Switchboard Systems enable fast and efficient assembly that meet regulations and ensures your large projects are on time and within budget.

Residential Meterboxes Single Dwelling

Our Residential Meterbox range is designed for single or multi-phase residential and commercial applications. These are suitable for temporary or permanent installations and complies with the Service Installation Rules of each Australian state.

Advantages:

- Strong and reliable
 - Safe and easy to use cable management
 - Supplied components make the difference
-

Characteristics:

- 1.2mm Z275 galvanised steel construction
 - Powdercoated inside and out in RAL7035 (light grey)
 - IP23 enclosure with a flush door catch
 - Patented cable retainers
 - Large UV stable cable entry
 - Knockouts for cable entry
 - Consumer Neutral and Earth Links
 - 24 pole DIN full length across
 - 12 mod busbar & 18 x pole fillers in state meterboxes
-

Expert tips

01

Complies with the AS/NZS 3012 standard and meets the requirements of service installation rules of each state.

02

The patented cable retainers have three secure cord retention areas allowing you to keep the door closed. A SNO15DA DIN mount socket outlet will finish the job nicely.

03

A strong door retainer means the door can remain open when needed, especially helpful during installation and maintenance.

04

The large UV stable sliding cable entry has an easy screw tighten knob to keep cables safe and tidy. Also with rear cable knockouts for the meter section.

05

The N and E links are AS/NZS 61439.3 compliant and provided with RCD expansion to three circuits. Suitable for products with rated current up to 100A.

06

Generous component bag in the state meterboxes containing: 18x pole fillers, single phase 12 mod wide busbar, 2x cable ties and door padlocking kit.

Meterboxes approved for single residential installations.

Common features

- IP23
- 1.2mm galvanised steel chassis

Residential Meterboxes

- padlock knockout on door
- 75mm behind panel
- Supplied with a GD10T
- Unpainted

NSW Meterboxes

- RAL9002 powdercoated
- Flush door catch
- Consumer N&E links

QLD Meterboxes

- RAL7035 powdercoated
- Flush door catch
- Service isolation link
- Consumer N&E links
- Meter Neutral link cover

VIC Meterboxes

- RAL7035 powdercoated
- Flush door catch
- Service fuse
- Consumer N&E links
- Meter Neutral link

Residential Group Metering Enclosures

Metering Enclosures

Our range of multi-tenancy metering enclosures are suitable for up to 9 tenants. For general applications, we have a choice of two ready to wire enclosures that will suit up to 6 or 9 meters, with abundant DIN space for Main Switch and Consumer Sub Mains. The robust enclosures are made of galvanised steel with a 3-point locking door, padlock facility or optional key lock cylinder and can either be mounted on a wall or stand alone on a cable access plinth for underground supply.

Residential Group Metering Enclosures

Our range of prewired and unwired enclosures for multiple tenancy installations are constructed with a robust 1.5mm galvanised steel and are complete with Consumer Neutral and Earth links. Prewired metering enclosures are fitted

with the relevant tenancy MCBs, Meter Fuse or Meter Isolators, Service Fuse Holders and suitable Main Switches to comply with Supply Authority Rules and Regulations in your state.

Advantages:

- Prewired for single meters only and unwired for multi-metering configurations.
- Key lockable and padlockable
- Tenancy main switch MCBs
- Pre-labelled for SIR compliance
- Consumer neutral and earth links
- Front panel removal for cable access and mounting

Characteristics:

- | | |
|----------------------|-------------------------|
| - Protection rating: | - IP23 |
| - Body: | - Galvanised steel Z275 |
| - Body thickness: | - 1.5mm |
| - Surface finish: | - Powdercoated RAL7035 |
| - Rating: | - 6kA for 0.1 sec |

Expert tips

01

Meet the requirements of service and installation rules for each state.

02

Prewired enclosure options available for VIC and SA. Unwired enclosures available for QLD to meet your single phase or 3 phase installation requirements.

03

There is ample DIN space in the board to accommodate tenancy Main Switch and public metering.

04

The slim key lockable handle is also padlockable and has a 3 point locking system for added security

05

Connection points for Neutral, Earth and Active links.

06

Easy to access cables with wall or plinth mounting.

07

Cable tie access points allow easy cable management within the enclosure.

08

Designed with the installer in mind, the easy to install Group Metering Enclosure will save you time.

Enclosure features

- Space for single phase or 3 phase metering
- Lockable
- IP23
- Hinged meter panel
- 32 pole of DIN space
- Consumer Neutral & earth links
- Depth behind panel 150mm
- Clearance front panel to door 175mm

Rating

- 6kA 0.1 sec

Material

- 1.5mm Galvabond Z275

Finish

- Powdercoated RAL 7035

Plinth features

- Removable front panel for easy cable access
- Complete with bolts for mounting
- Provision for Authority seals

Material

- 1.5mm Galvabond Z275

Finish

- Powdercoated RAL 7035

Cat. No.	VYGMN6	VYGMN9
Description	General 6 Unwired	General 9 Unwired
Design		
General	Accommodates multiple occupancy metering.	
	No access to Authority wiring without breaking Authority seal.	
	Enclosure manufactured from non-flammable Galvanised steel.	
	Dimensions meet all requirements of relevant area SIR	
	Panel can be fixed & sealed in compliance with relevant area SIR	
No obstruction for movement of the panel in the action of opening or closing		
Construction		
Enclosure	GME enclosures are made from 1.5mm Z275 hot dipped zinc plated steel with additional powder coating of 60micron to meet all corrosion requirements.	
Spread of fire	All openings are well below 5mm to prevent any spread of fire.	
Panel clearances	Clearance behind panel is 150mm. Clearance from panel to enclosure door of 175mm to accommodate all known domestic metering.	
Enclosure Ventilation and condensation drainage	Door is vented, 10mm holes in base for drainage.	
Sealing and locking	Swing handle on door of enclosure can be padlocked. Optional key locks CL001, 97000 or 92268 available as an accessory.	
Non removable fixed earth stud rear of panel	Permanent earthing facilities are provided	
Door	Hinged door with latch and retainer to retain door in the open position	
External finish	Ripple finish powder coat, 60micron - RAL 7035 (light Grey)

Vertically hinged	Y	Y
Material	Reinforced phenolic resin.	
Compliance	Glow wire test to 960°C	
Construction & Supplemental equipment		
Wiring holes	Ø32mm panel wiring holes are pre-moulded into panel (sealed) with "knock-out" membrane	
Fixing and Sealing	Panel is right side hinged with removable offset double hinge flap opening >80Deg. Tool req'd to open with separate sealing stud.	
Labelling	Engraved labels with minimum 3mm height lettering. Permanent, legible and convenient	
Mounting of Equipment	Meter panel is designed & arranged for the mounting of Authority equipment only	
Active links	NA	NA

Description	VIC 4 Unwired	VIC 6 Unwired	VIC 9 Unwired	VIC 4 Wired	VIC 6 Wired	VIC 8 Wired	VIC 3 Wired
Design	Accommodates multiple occupancy metering. Authority wiring area is segregated from consumer wiring. No access to Authority wiring without breaking Authority seal. Enclosure manufactured from non-flammable Galvanised steel. Dimensions meet all requirements of relevant area SIR Panel can be fixed & sealed in compliance with relevant area SIR No obstruction for movement of the panel in the action of opening or closing						
General							
Construction	Enclosure GME enclosures are made from 1.5mm Z275 hot dipped zinc plated steel with additional powder coating of 60micron to meet all corrosion requirements. Spread of fire All openings are well below 5mm to prevent any spread of fire. Panel clearances Clearance behind panel is 150mm. Clearance from panel to enclosure door of 175mm to accommodate all known domestic metering. Enclosure Ventilation and condensation drainage Door is vented, 10mm holes in base for drainage. Sealing and locking Swing handle on door of enclosure can be padlocked. Optional key locks CL001, 97000 or 92268 available as an accessory. Non removable fixed earth stud rear of panel Permanent earthing facilities are provided Door Hinged door with latch and retainer to retain door in the open position External finish Ripple finish powder coat, 60micron - RAL 7035 (light Grey)

quadro M 630A Modular Switchboard System

Flexible switchboard solution

From a simple metering panel to a main switchboard designed for up to 630A, our quadro M Modular Switchboard System offers a diverse range of options for power distribution in all multi-residential and commercial applications.

High level of finish

quadro M Enclosures have a welded galvanised steel construction and the complete quadro M range is finished off with a RAL7035 ripple powdercoating.

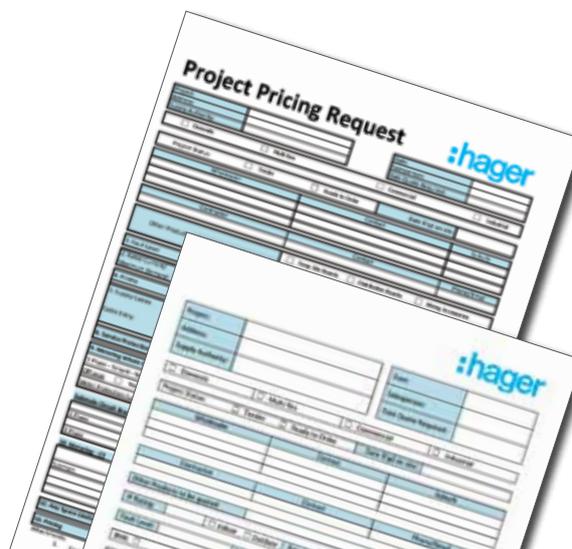

Full suite of devices

We provide a full solution of modules and kits including CT Chambers, Panelboard Kits, Main Switch Modules and Authority Modules which can be fully assembled, wired and fitted within the enclosure, tested and delivered to site.

Quotation service

Our team can provide you with technical and cost effective quoting solutions to single line diagram / quote requests backed by PowerCAD industry leading electrical software. For project quotes and to receive our Project Pricing Request Form, please contact us on **1300 850 253**.

quadro evo and h3+ Modular Switchboard System

A system evolved

quadro evo is our Main Switchboard for up to 1600A, suitable for large projects and provides more options of application. The system offers robustness, ease and flexibility of installations.

h3+ inside

With h3+ as a backbone, your electrical main distribution will have more capabilities, intelligence and safety options.

More space

The new quadro evo design offers accessibility and working space for better switchgear and cable installation as well as better busbar work and maintenance.

The complete choice

quadro evo offers 4 safety classes. With segregations 1, 2b, 3b, or 4b, there is a solution for projects of any dimensions.

Quotation service

Our team can provide you with technical and cost effective quoting solutions to single line diagram / quote requests backed by PowerCAD industry leading electrical software. For project quotes and to receive our Project Pricing Request Form, please contact us on **1300 850 253**.
